

INFORMED CONSENT FORM (ICF)

Project Title: Coach Fundamental Skills

Kaio Borges Guerrero; Paula Teixeira Fernandes

CAAE Number: 83064624.8.0000.5404

RESEARCH PRESENTATION:

You are invited to participate in the research "Coach Fundamental Skills Model", which will be conducted at Unicamp under the responsibility of researcher Kaio Borges Guerrero. The information in this document was provided by researchers Kaio Borges Guerrero and Paula Teixeira Fernandes.

This document, called the Informed Consent Form (ICF), aims to ensure your rights as a participant and will be made available via email. After signing, please send the document by email to kaiobg@hotmail.com. This form should be saved in a safe and accessible place for future use, or printed and stored.

Please read carefully and calmly, seeking to fully understand the research proposal. If you have questions about any point of the research or your participation, before or even after agreeing to participate, you may clarify them with the researchers Kaio Borges Guerrero and Paula Teixeira Fernandes through the contact means described in this Term. If you prefer, you may consult your family and/or other people before deciding to participate. There will be no penalty or loss if you do not wish to participate or if you choose to withdraw your consent at any stage of the research.

RESEARCH INFORMATION:

Objectives: The objective of this research is the construction and validation of the Coach Fundamental Skills Model (MHFT), a psychometric tool designed to identify and analyze the primary psychological trends among coaches of both team and individual sports.

Importance of the study: The study aims not only to describe these trends but also to provide insights that allow coaches to develop specific strategies to enhance their professional performance, mental health, and, consequently, improve their teams' performance.

Procedures and methodologies: Your participation in the study will consist of responding online. You should not participate in this study if you do not have internet access to complete the questionnaire. The data and information obtained during this research will be stored for a period of 5 years on the principal researcher's encrypted personal computer with cloud backup. After this period, the data will be permanently destroyed. Storage will be conducted anonymously. During this period, the participant may request the deletion of their data at any time.

Data treatment: This research provides for the storage of collected data in the REDU and Firebase data repositories in a publicly accessible virtual location for the purposes of possible reuse, verification, and sharing in scientific collaboration with other research groups. Your identity will not be revealed in this data, as it will only be stored anonymously (i.e., the data will have no identification), using mechanisms that prevent the possibility of direct or indirect association with you. It is important to note that those who share the data will also be unable to identify the participants from whom the data originated. Therefore, there will be no possibility of reversing the anonymization.

Anticipated discomforts and risks: This research, conducted through the application of questionnaires, presents minimal risks to the participant, such as possible discomfort regarding the duration of the entire procedure (approx. 15 min.) and while answering the questionnaires, as they involve personal questions. The subject reserves the right not to answer any question at any time during the research. As it involves a virtual

environment dependent on internet technology, possible discomforts are related to smartphone slowness or internet connection failures. However, information will be kept among the researchers part of this study, and your name will not be mentioned in the publication of the results. As a possible risk, given that data storage is electronic, data loss due to technical failures may occur.

Benefits: Although this research does not provide direct benefits to participants, the creation of the Coach Fundamental Skills Model assists the coach in developing specific skills according to their reality. With it, it will be possible to identify aspects that need further development in search of professional excellence and better team performance. Indirect benefits also appear, as the results obtained may serve as resources to assist professionals working with training who intend to improve the performance and development of their athletes in competitions and improve mental health.

Monitoring and assistance: At any time, you may obtain clarifications regarding all procedures used in the research and the forms of result dissemination. You will also have the freedom and the right to refuse participation or withdraw your consent at any stage of the research by simply contacting the researcher. This term will be sent with a copy to the registered email. During the research, psychological monitoring and referrals will be provided for any discomfort you may experience while answering the questionnaires.

Contact information for researchers: In case of questions about the study, you may contact Prof. Kaio Borges Guerrero at GEPEN-FEF/UNICAMP, Avenida Érico Veríssimo, 701, Cidade Universitária Zeferino Vaz, Barão Geraldo, CEP 13.083-851, Campinas, SP, Brazil. Email: kaiobg@hotmail.com; Phone: +55 (19) 99783-4941. In case of reports or complaints regarding your participation in the study, you may contact the secretariat of the Research Ethics Committee (CEP): Rua Tessália Vieira de Camargo, 126; CEP 13083-887 Campinas – SP; Phone: +55 (19) 3521-8936; Fax: +55 (19) 3521-7187; Email: cep@fcm.unicamp.br.

Contact information for the Research Ethics Committee (CEP): The role of the CEP is to evaluate and monitor the ethical aspects of research involving human beings, protecting participants' rights and dignity. In case of questions, reports, or complaints about the ethical aspects of your participation and your rights as a research participant, contact the UNICAMP Research Ethics Committee (CEP-UNICAMP) secretariat from Monday to Friday, from 08:00 AM to 11:30 AM and from 01:00 PM to 05:30 PM at Rua: Tessália Vieira de Camargo, 126; CEP 13083-887 Campinas – SP; Phones: +55 (19) 3521-8936 and +55 (19) 3521-7187; Email: cep@unicamp.br. If there is a need for communication mediation in Libras (Brazilian Sign Language), you may contact the Unicamp TILS Central at <https://www.prg.unicamp.br/tils/> and request assistance for communication with the CEP.

GUARANTEES TO PARTICIPANTS:

Clarifications: You will be informed and clarified about the relevant aspects of the research before, during, and after the study, even if this information leads to your refusal to participate or your withdrawal from the research.

Right to refuse participation and right to withdraw consent: You have the right to refuse to participate in the research and to quit and withdraw your consent at any time during the study without any penalty or retaliation of any nature and without any prejudice to you.

Confidentiality and privacy: You are guaranteed that your identity will be kept confidential, and identified or identifiable data and/or information will not be provided to individuals who are not part of the research team. In the dissemination of the results of this study, information that could identify you will not be shown or published. Due to the digital nature of this research, absolute security or confidentiality of data cannot be guaranteed, but every care will be taken by the researchers to ensure the confidentiality of your data.

Reimbursement: It is important to emphasize that participants in this research will not receive any financial reimbursement for participating in the study, nor may they use it as a means of advertising their services. This is due to the fact that the researcher will be traveling and adapting to the routine of those being researched. You will not need to travel or perform any activity outside your usual routine. You will not incur

any expenses for participating in this research. If you have expenses to participate in this research outside of your routine, you will be fully reimbursed for your expenses. In case of any damages, the participant will be entitled to compensation from the researchers.

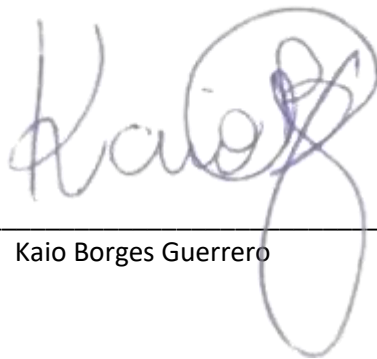

Assistance, compensation, and reparation measures: You have the right to seek compensation and reparation for damages if you feel harmed by participating in this research, even if you have already agreed to participate in the study and signed the ICF. You will receive full and immediate assistance, free of charge, for as long as necessary, in case of damages resulting from participation in this research.

Delivery of the ICF: You will receive this Term signed and initialed by the researcher via email. If you prefer another type of delivery, upon notifying the researchers, the request will be met.

FREE AND INFORMED CONSENT: After receiving clarifications about the nature of the research, its objectives, methods, anticipated benefits, potential risks, and discomforts that it may entail, I accept to participate and declare that I have received this document signed by the researcher via email.

- I declare that I am 18 years of age or older. I have read the informed consent form (ICF) and I AGREE to participate in this research.
- I declare that I am not 18 years of age. I have read the informed consent form (ICF) or I DO NOT AGREE to participate in this research.

Researcher's Responsibility: I ensure that I have complied with the requirements of Resolution CNS/MS 466/2012, CNS/MS 510/2016, and complementary regulations in the preparation of this research protocol and in obtaining this Informed Consent Form. I also ensure that I have read, explained, and provided this document to the research participant. I inform that this study was approved by the CEP (Research Ethics Committee) before which the project was presented. I commit to using the material and data obtained in this research exclusively for the purposes provided for in this document or as per the consent given by the participant.

A handwritten signature in blue ink, appearing to read 'Kaio', with a large, stylized loop extending from the bottom right.
